HEALTH REPORT FROM DR. CLEMENT

The Health Director, Dr. F. J. Clements, announced that two cases of diphtheria occurred during the month of September 1960, in Appomattox County. He also noted that several cases were reported in other areas of the state and the medical profession wishes to urge parents to properly immunize their families before a serious outbreak occurs. The disease has a predilection to occur in the fall season.

Dr. Clements also noted that whooping cough continues to afflict the young children & the disease is frequently severe & prolonged & may be fatal to infants. He also regrets that many families are not protected against paralytic poliomyelitis & that during the first seven months of 1960 Virginia had more cases of Tetanus (lock jaw) than it had reported polio cases.

The answer to this is to immunize against these preventable diseases & all of our physicians will cooperate to the fullest. "Please do not wait for some one to beg you to protect your family, the immunization is your best insurance" says Dr. Clements.

The Appomattox Co., Health Department conducts an Immunization Clinic each Tuesday at 1:00 P. M. for those who do not have a family physician.

From where I sit ... *by* Joe Marsh

Huck Saves the Day

Saturday's always "together" day for Huck Roberts and his missus. Five days a week Huck's selling on the road, so they like to spend Saturday afternoon by themselves.

Most of Huck's friends know this and stay away unless invited. All except one couple whom Huck found a polite way to send them home.

As soon as Huck would spot the couple driving up, he'd put on his hat and coat—and step out the front door. Polite as could be, Huck would say, "Sorry we can't ask you in, we're just on our way out!" Then, soon's the couple drove off, Huck went right back inside!

From where I sit, neighborliness means a mutual respect between neighbors—for one's privacy, feelings and preferences. This holds for little things too. For instance, when a neighbor prefers a glass of beer or buttermilk, that's his business. And it's our job to respect his preference every day of the week—Saturdays, Sundays and holidays included.

Now! Electric hot water that's big-family fast!

INSTALL A NEW 24-HOUR

QUICK-RECOVERY ELECTRIC WATER HEATER
BY NOVEMBER 15 ... AND GET THIS DOUBLE SAVING!

Save $30 on installation when you replace any non-electric water heater with a Quick-Recovery Electric Water Heater—new non-replacement installations also qualify. It's 100% clean, needs no flue, gives off no heat ... so you can tuck it away anywhere. It's so compact that it fits under the kitchen counter, under the stairs, even in the corner of a closet. With a tank only half the size of the older electric heaters, this Quick Recovery model gives you twice as much hot water a day. All the piping hot water you need for baths and dishes and automatic laundry and cleaning ... even in a big family.

Save on electric rates. The new Quick-Recovery Water Heater enjoys VEPCO's lowest home rate for 24-hour electricity. After first 100 kilowatt hours monthly at 2¢ per kwh, down goes the cost of water heating to only 1¢ per kwh. And at that bargain rate, you can heat all the water you need, at any hour of day or night. See the new Quick-Recovery Models at your VEPCO Authorized Live Better Electrically Dealer or Plumber (see attached list). And clip the coupon below now. It will save you $30 on installation of the world's only 100% clean, silent, automatic hot water system ... modern all-electric water heating.

This coupon worth $30
Clip it now and use it by November 15th on installation of a Quick-Recovery Electric Water Heater.
